Profile

ISTQB-certified QA Analyst with experience in test case design and execution, defect reporting, and quality assurance in agile environments. Specialized in QC/QA of websites and webapps, with a keen attention to detail and a proactive approach to improving the quality and efficiency of software projects.

Experience

QA Analyst / QA consultant - Logui Soft - Mar 2025 to present

- Designed and executed comprehensive, end-to-end test cases for a commercial and business management webapp, increasing test coverage and ensuring full alignment with user requirements.
- Identified, documented, and tracked software defects, collaborating closely with the development team to facilitate timely resolutions and verification of fixes.
- Performed rigorous regression testing suites before each major release, successfully preventing over 10 critical bugs from reaching production and ensuring the stability of existing functionalities.

Video Editor / Content Creator - Old School Media - May 2023 to Mar 2025

- Oversaw the complete post-production lifecycle, performing detailed analysis of media assets to deliver a final product that met high standards for quality, accuracy, and consistency.
- Acted as the quality control lead, supervising the script to ensure strict adherence to narrative requirements and flagging any deviations or continuity errors for immediate correction.

General Producer - *Orfeo FM - Dec 2021 to Feb 2024*

- Responsible for creating and maintaining the digital image of the company, I teamed up with production executives and the artistic director to **design, create and implement the social media agenda**, generating valuable content to be implemented on Instagram, Facebook and Twitter (X).
- Worked alongside the commercial director in the station's commercial agenda, managing key partner contracts to ensure all client expectations and quality standards were successfully met.
- Contributed to a key content and commercial strategy that resulted in doubling the station's audience within a single year, **boosting from 1.90% to 4.03% of the market share**. Achievement featured in "[La Voz](#)" newspaper.
- Because of my English proficiency, I was in charge of the **translation and dubbing of foreign content**.
- Proposed and led the introduction of **AI tools** for copywriting, research and video/image generation and processing, leading to an increase in productivity as day to day activities could be performed in less time.

Professor - *Universidad Nacional de Córdoba - Mar 2020 to Dec 2022*

- Delivered a complete curriculum on sound recording and design, effectively mentoring students by translating complex technical concepts into engaging lessons to improve their skills.
- Evaluated student work against defined academic standards and collaborated with faculty to enhance the curriculum, providing constructive feedback to improve quality and boost engagement.
